FILES IN THE ARCHIVES (Names of the files translated from Finnish)

Given that the archive system at the MFA was changed as of May 1, 2001, the files corresponding to the period prior to April 30, 2001 have different codes than in the later classification. Therefore, only the project codes used in financial administration, which have not changed, are indicated here. The signum for all the files is 93.20 JUG, unless otherwise indicated. About 4 shelf meters of material was checked. The method consisted of going through every folder and all documents/papers and making notes on laptop computers of the important documents and any relevant observations concerning the files.
